

URGENT: 911 REPORT TO THE MOVEMENT ON MUMIA

Legal, Medical and Political Updates. Discussion of Next Steps.

Now that Mumia's legal team has filed the demand for a very specific medical treatment plan, based on the tentative diagnosis of his medical condition that one of his doctors has made, we feel it is important that we share the legal strategy and the medical findings with the movement. There will also be a presentation of the outrageous and deadly medical picture in the prison system as a whole for all of our political prisoners as well as for the general prison population. We will discuss some beginning plans

for the next political steps we must take to save Mumia's life and to free him. And we look forward to hearing initiatives others might take as well in moving forward.

Partial List of Speakers: Pam Africa, International Concerned Family and Friends of Mumia Abu-Jamal; Bob Boyle, Member of Mumia's Legal Team; Suzanne Ross, Free Mumia Abu-Jamal Coalition; and others to be announced. Light refreshments will be available.

Friday, Sept. 11, 6–9 pm
